PROJECTS

Tawde Nusing Home Java, ReactJS, Spring Boot, MySQL — [GitHub]

- The primary objective of the Nursing Home Management System project is to design, develop and implement an efficient and user-friendly software solution.
- It streamlines and enhances the management processes within a nursing home and aims to handle patient information, staff management and overall administration.

ATM Simulator Java, AWT, Swing, MySQL — [GitHub]

- ATM simulator emulates all essential banking functionalities, including account balance inquiries, funds transfer, cash withdrawals and deposits.
- Through a user-friendly interface created with AWT and Swing, customers can seamlessly navigate through various banking operations.

CERTIFICATIONS

- NPTEL Online Certification in Introduction to Industry 4.0 and Industrial Internet of Things
- Salesforce Developer Virtual Internship
